

The Seattle Police Department is seeking to hire up to four highly capable and experienced contract intelligence analysts to support homeland security and public safety program needs. The initial contract period is anticipated to be approximately two years, with a reasonable expectation that future funding would extend this period for analysts who deliver high quality services. A detailed description of the qualifications and contracting process is available at www.Ebidexchange.com/seattle . While the RFP process contemplates that consulting firms will submit proposals to provide analysts, individuals are also encouraged to submit proposals and the RFP Coordinator, Ron Leavell, may be contacted at ron.leavell@seattle.gov with questions and to assist you with the application process. The initial contract rate may not exceed \$50.00 per hour and all proposals must be submitted by 1600 hrs on May 29, 2009.
